

Workshop Title:

National Policies Upscaling Organics and Agroecology: New Breakthroughs and Lessons Learned

Main Organizer & Contact Person:

- **Main Organizer:**

Paul Holmbeck, World Board Member IFOAM – Organics International

Director, Holmbeck EcoConsult (Denmark)

Website: <https://paulholmbeck.com/>

Steering Committee Members: IFOAM – Organics International World Board

Main Topic:

Case studies: national policies on several continents.

Specific policy examples for interventions supporting a wide range of central drivers for organics and agroecology: farmer transition to organics and agroecology, market development, organic public procurement, peer-to-peer learning among farmers, Participatory Guarantee Systems, organic input supply chains, labelling programmes, research & development and innovative financing mechanisms.

Lessons from inclusive and empowering national policy/strategy development and implementation strengthening civil society and farmer influence longer term.

New opportunities for inclusion of organic and agroecology policies in national climate and biodiversity plans

Targeted Public:

Organic stakeholders involved in policy development, research, extension, and market development. Relevant for all regions and actors working on national policy frameworks for organics and agroecology.

Main Objectives of the Workshop:

The aim of this workshop is to bring together experienced practitioners to share lessons and knowledge as inspiration for actors working towards new national organic policies in their lands.

Language:

English /Mandarin

Maximum Participants:

30-60 participants
