

## Join a Workshop at the Organic World Congress (OWC) 2024!

The Organic World Congress (OWC) 2024, organized by Nanhua University and IFOAM – Organics International, is the leading global event for the organic sector. It brings together participants from around the world to exchange knowledge, share innovations, and advance organic farming practices.

Explore a diverse range of workshops designed to enhance your understanding of organic solutions and sustainable practices. Don't miss the chance to engage with experts and help shape the future of organic agriculture.

### Workshop Title: Opportunity for Sustainable Agriculture/Conversion from Conventional Farming to Natural farming

#### Organizer:

Ms. Jane Chen

Director, New Wholesome Food, PureLand Culture Promotion Association, and Natural Farming Promotion Centre in Taiwan

#### Co-Organizer:

Mr. Daycha Siripatra

Chairman, Khao-Kwan Foundation, Thailand

This workshop brings together pioneering experts to showcase groundbreaking techniques that are shaping the future of organic farming. From seed selection to microbial solutions, learn how innovative natural farming practices are converting conventional agriculture to sustainable organic methods across Taiwan and beyond.

#### Why Attend?

- **Learn** how natural farming practices are revolutionizing conventional agriculture.
- **Understand** the use of microorganisms to restore biodiversity and achieve sustainable farming.
- **Discover** successful case studies from 12 years of implementation in Taiwan.

#### What to Expect?

This workshop will provide an in-depth look into a unique approach to natural farming. It focuses on seed selection and the use of humus soil to promote biodiversity and improve soil health.

## **Main Topics:**

- Seed selection techniques to improve crop quality and adapt to climate change.
- How to convert agricultural waste into liquid fertilizer and compost using microbial techniques.
- Methods to restore the ecological environment of farmlands by introducing microorganisms into water sources and paddy fields.
- Success stories of Taiwanese farmers implementing these techniques over the past 12 years.

## **Who Should Attend?**

This workshop is ideal for farmers, ecological conservationists, and anyone interested in sustainable farming practices. Whether you're cultivating grains, vegetables, or fruits, these techniques can be applied globally.

## **Speakers and Moderators:**

Learn from a diverse group of distinguished speakers and moderators:

- **Ms. Jane Chen – Taiwan**
- **Mr. Daycha Siripatra – Thailand**
- **Prof. Yi-Sung Chen – Taiwan**

## **Interactive Format:**

- Presentations by experienced practitioners of natural farming.
- On-site demonstration of seed selection and microbial cultivation techniques.

## **Duration**

**One session: 1.5 hours (90 minutes)**

**Language:** English
