

Join a Workshop at the Organic World Congress (OWC) 2024!

The Organic World Congress (OWC) 2024, organized by Nanhua University and IFOAM – Organics International, is the leading global event for the organic sector. It brings together participants from around the world to exchange knowledge, share innovations, and advance organic farming practices.

Explore a diverse range of workshops designed to enhance your understanding of organic solutions and sustainable practices. Don't miss the chance to engage with experts and help shape the future of organic agriculture.

Workshop Title: Regeneration of Mountain Agriculture: Future Solution for Sustainable Food Systems

Organizer:

Sujata Tamang

Alliance of Agriculture for Food¹ Secretariat, ForestAction, Nepal

Join us for an insightful exploration into the critical role regenerative agriculture plays in transforming mountain agriculture!

This workshop unites leading experts to address pressing challenges in mountainous regions, with a focus on building sustainable food systems amidst climate change. The session will showcase innovative agroecological solutions that empower local communities and conserve biodiversity.

Why Attend?

- **Discover** how regenerative practices are tackling key challenges in mountain agriculture, including soil degradation and water depletion.
- **Learn** from case studies that highlight successful agroecological applications in mountainous terrains.
- **Engage** in discussions about policies and measures needed to support sustainable farming in fragile ecosystems.

What to Expect?

This workshop features a single informative session designed to foster collaboration and discussion around sustainable agriculture in mountainous regions.

Main Topics:

- **Introduction to Regenerative Agriculture:** Understanding the principles and practices of regenerative agriculture and their relevance to mountain agriculture.
- **Challenges of Mountain Agriculture:** Soil degradation, environmental impacts, biodiversity loss, and climate change.
- **Agroecological Solutions:** Case studies that demonstrate the benefits of agroecological approaches in mountain farming.
- **Indigenous Knowledge and Community Involvement:** The role of local knowledge and participatory approaches in sustainable agriculture.
- **Climate Change Resilience:** How agroecology builds resilience in mountain agriculture.
- **Policy and Supportive Measures:** Exploring policies and incentives that promote sustainable farming practices in mountain regions.

Who Should Attend?

This workshop is tailored for farmers, agricultural practitioners, policymakers, researchers, NGOs, and community members passionate about advancing sustainable agricultural practices in mountain regions.

Speakers and Moderators:

Learn from a diverse group of distinguished speakers and moderators to be announced soon!

Interactive Format:

- **Presentation:** An in-depth look at regenerative agriculture and agroecological solutions in mountain regions.
- **Q&A Discussion:** Engage with experts and peers to explore future directions and innovative ideas.

Duration

- **One Session: 1.5 hours (90 minutes)**

Language: English
